

## MOIST BODY WIPES

Dermex Bactericidal body wipes are the strong, safe, gentle way to cleanse the skin without the need for soap and water.

# Convenient dermatologically tested, hygienic hand and body cleansing wipes that are safe and gentle enough for baby's skin.

Dermex are absorbent fabric wipes impregnated with a blend of surfactants and mild, pharmaceutical grade bactericides designed to cleanse the skin thoroughly while helping to provide protection against cross infection.

Dermex helps to maintain the skin's natural pH balance to leave it in optimum condition, while a skin safe deodorant gives Dermex its pleasant, mild clean fragrance.

Developed for use by nursing staff and patients for cleansing hands and body where hygiene requirements are paramount, Dermex is used extensively throughout the NHS.

Dermex is lanolin free. The fluid is formulated using pharmacopoeia approved ingredients and is manufactured under the quality assurance requirements of ISO 9000.

Hazard Identification...	No hazardous materials.
Fire Fighting Measures...	Non-combustible.
Handling Storage...	Stored in a frost free environment out of direct sunlight, Dermex has a shelf life of 2 years.
Biodegradability...	Fluid is biodegradable, fabric degrades over length of time.
Disposal...	Never flush to sewer or water courses. Dermex is non-hazardous waste but when contaminated with other harmful substances it should be treated accordingly.
