

Convenient, heavy duty cleansing wipes for removing contamination while sanitising hard surfaces.

Surfex are absorbent, low lint fabric wipes impregnated with a blend of alcohol solvent and water to kill germs, leaving hard surfaces clean and hygienic.

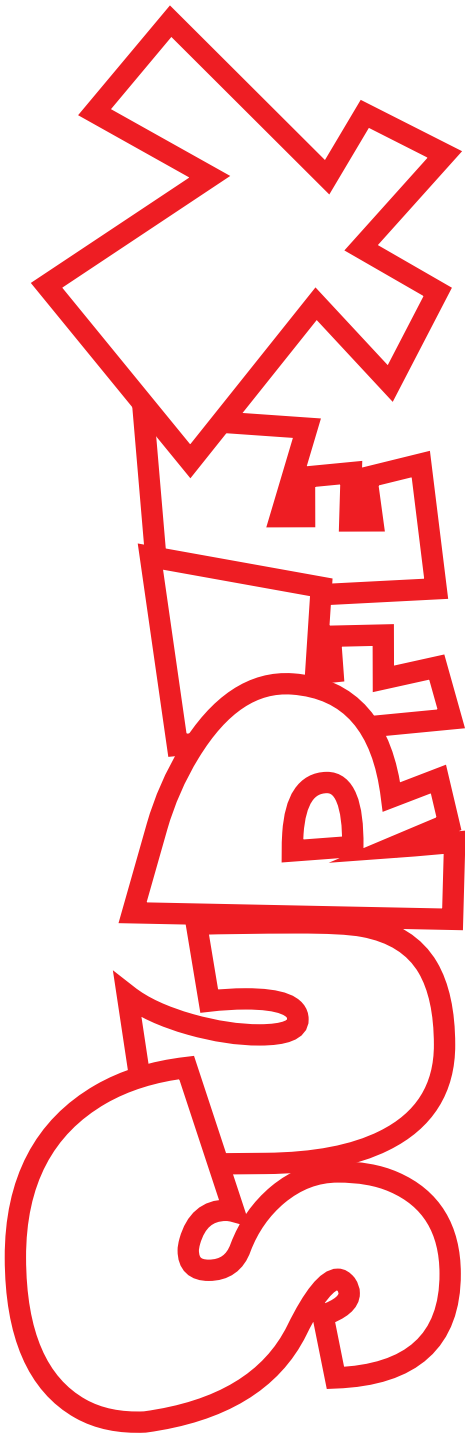

With its highly effective alcohol solvent, Surfex is safe to use on vinyls, metals, plastics, formica and furnishing materials.

Surfex has the added benefit of providing rapid biocidal action for disinfecting hard surfaces where hygiene is an issue.

Used extensively in hospitals and nursing homes, Surfex is equally suitable for use in food manufacturing and preparation areas and wherever surfaces need sanitising and in health clubs and gymnasias where hygiene is also a consideration.

The gentle solvency power makes Surfex equally suitable for precision cleaning of personal items, such as, telephones, computers, keyboards, VDUs etc., in fact, wherever residue free cleaning and sanitising is required.

Hazard Identification...	Flammable. May cause irritation. Will react strongly with oxidising agents.
Fire Fighting Measures...	Use chemical powder extinguisher.
Handling Storage...	Stored in a frost free environment out of direct sunlight, Surfex has a shelf life of 2 years.
Biodegradability...	Fluid is volatile, fabric degrades over length of time.
Disposal...	Never flush to sewer or water courses. Surfex is non-hazardous waste but when contaminated with harmful substances it should be treated accordingly.

HARD SURFACE MOIST CLEANING WIPES

Surfex moist wipes are the strong and effective way to clean and sanitise hard surfaces.
